- 1 teaspoon ground nutmeg
- 2 teaspoons baking soda
- 1 teaspoon ground cinnamon
- 3 cups sugar
- 1 cup vegetable oil
- 4 eggs, beaten
- 1/3 cup water
- 2 cups grated zucchini
- 1 teaspoon lemon juice
- 1 cup chopped walnuts or pecans

Directions

Preheat oven to 350 degrees F. In a large bowl, combine flour, salt, nutmeg, baking soda, cinnamon and sugar. In a separate bowl, combine oil, eggs, water, zucchini and lemon juice. Mix wet ingredients into dry, add nuts and fold in. Bake in 2 standard loaf pans, sprayed with nonstick spray, for 1 hour,

or until a tester comes out clean. Alternately, bake in 5 mini loaf pans for about 45 minutes.

Awesome Basic Bread Recipe

1 cup warm water (very hot tap water should be the right temp for the yeast)

1/3 cup sugar

1 package of dry active yeast (or 1 tablespoon)

2 tablespoons of canola oil (or whatever oil you have handy)

3/4 teaspoons salt

2 1/4 cups All-purpose flour

3/4 cup ground flax seed (I just ground a bit of flax seed in my coffee grinder, placed the flax in my one cup measure and finished filling it with flour in order to make a total 3 cups mix of flax and AP flour)

Using a bread machine.

1. Dissolve sugar in warm water and stir in yeast. Mixture should stand about 15 minutes (until creamy foam appears). Put into bread machine pan and add oil. Swish around to mix them together.

2. Add flour & flax seed on top, and salt on top of the flour. Set machine to dough setting and start.

3. When dough is made and has risen the first time (the bread machine should beep to tell you when the dough setting is complete), take it out of the bread machine pan and work it

lightly in your hands to get the air bubbles out. I just cover my hands with flour then pick up the dough and work it lightly on the counter for a few moments.

4. Form into a loaf and put in a greased loaf pan. Cover and let rise in a warm place about 30-45 minutes, until almost doubled in size.

5. Bake at 350 degrees for 25-30 minutes, or until done. If loaf is browning too quickly, cover top loosely with foil. When bread is finished, take it out of the oven and allow it to set for 5 minutes. Remove from pan, place on wire rack, and cover until loaf is cool.

Pineapple & Coconut Loaf

1 1/2 cups of sweetened shredded coconut

1 stick of butter

1 1/2 cup of flour (all-purpose)

1/2 t baking soda

1/2 t salt

1 cup sugar

3 large eggs

1 cup sour cream

20 ounces pineapple (fresh or canned, minced & drained)

Preheat oven to 350.

Toast 1 cup of coconut by spreading it evenly across cookie sheet and bake for about 6 minutes or until golden brown; set aside to cool. Prepare loaf pan using baking spray or butter/flour. In a medium bowl, whisk together dry ingredients: flour, salt and baking soda, set aside.

In a mixer, beat butter and sugar until fluffy. Add one egg at a time and beat until well incorporated. On a low speed add 1/3 of flour mixture then 1/2 of sour cream then 1/3 flour mixture then 1/2 sour cream and end with last bit of flour mixture.

Fold in pineapple and toasted 1 cup of coconut, spread into prepared loaf pan. Sprinkle remaining 1/2 cup of coconut over the top. Bake until a toothpick inserted in the center comes out clean, about 65-70 minutes. Cool most of the way in the loaf pan and then remove to a wire rack to finish cooling. This loaf will remain okay at room temp, wrapped for up to 2 days. I much prefer mine to be refrigerated. It's tasty cold and lasts a day longer.
