

Soft Kefir Cheese (or Yogurt Cheese)

A creamy soft cheese made from kefir or yogurt. Easy to make and a perfect substitute for sour cream, cream cheese, and more!

Yield:

Varies

Ingredients:

8 cups (or more) homemade kefir or homemade yogurt

Supplies needed:

Strainer

Bowl

Cheesecloth or thin dish towel

Instructions:

1.
Place your strainer in the bowl. (Ideally the bottom of the strainer should rest at least a few inches above the bottom of your bowl.) Line with the cheesecloth (2 layers of 90-count cheesecloth works perfectly!) or clean thin dish towel.

2. Pour your kefir or yogurt into the cheesecloth or towel. Allow to drain for 15-20 minutes. Carefully and gently tie the towel ends together to cover the kefir (or yogurt). Allow kefir to drain for an additional 8-24 hours (can be kept out on the counter or in the fridge

while draining), until the cheese is the consistency desired.

For a sour cream consistency, I like to drain for about 8 hours. This makes a creamy spreadable texture, perfect on tacos, beans and rice, or spread on crackers!

For a thicker cream cheese consistency, drain for 18 hours (approximately). This is great for cheese balls or cheese spread.

Drain for 24 hours or so for a thick soft cheese consistency.

Add herbs if desired! Store cheese in fridge until used (keeps for several weeks).

Spicy Fried Cauliflower (Whole 30)

Ingredients:

- 1 Cauliflower head, grated into “rice” over the coarse side of a grater.
- 1 Onion, finely chopped.
- 2-3 cloves of Garlic, minced.
- 2 tbsp chopped Parsley.
- 1 tbsp Chili Flakes.
- Salt and crushed Black Pepper.
- 3 tbsp extra virgin Olive Oil.

Instructions:

Heat the olive oil in a large frying pan.

Add onions, garlic and parsley and fry for a few minutes until the onions starts to get translucent.

Then add the riced cauliflower and let fry for another five

minutes or so, stirring every once in a while so the cauliflower and onions get evenly mixed.

Towards the end, add the chili flakes (Edit: start with just a small amount, taste it and then add more if needed until you have a level of heat that you prefer! You don't want this too hot, it should have a pleasant heat to it...) and then salt and pepper to taste.

Serve as a side dish, eat and enjoy!

Try maple syrup instead of sugar. Would whole wheat flour work instead of white flour? How about canola oil versus the butter?? Add some flax seed? Maybe almonds?
