Cherry Pie Filling

Colorful homemade cherry pie filling

Yield:

About 3 cups

Ingredients:

3 cups pitted sour cherries*

1 1/2 cups sugar

approximately 1/2 cup water

approximately 1-2 tablespoons clear jel or cornstarch, for thickening

(Please see additional notes before making!)

Instructions:

1. Combine fruit and sugar in a pan and stir together. If cherries are soft and mushy, you won't need additional water, but if cherries are firm, add 1/4 to 1/2 cup water. Bring to a boil.

2. Mix cornstarch or clear jel** with some cold water or

reserved cherry juice (about 2 tablespoons of cold water with 2 tablespoons corn starch or clear jel), whisking to remove lumps.

3. When cherries are boiling, add thickening while stirring constantly to prevent lumps. Add enough thickening to make the consistency you desire. We like our pies fairly thick, but cheesecake topping thinner. Stir the thickening as it bubbles, just until the juices are clear. (When the filling looks clear, it's fully cooked. Over-cooking will start to break down the filling.)

4. Pour into pie crusts (unbaked pastry) for pies (bake pies at 425 degrees for about 30 minutes or until browned) or use as topping in other recipes.

Roll out dough onto a floured surface and cut out into pie tin. Prick the base with a fork to prevent puffing when baking.

Caramel Apple Pie

Slices of apples surrounded with a delicious vanilla-cinnamon caramel, baked between layers of flakey homemade pie crust

Yield:

12 servings

Ingredients:

6 cups peeled, cored, and thinly sliced cooking apples

1 tablespoon lemon juice (use less if your apples are very tart!)

1/2 cup (packed) brown sugar

1/2 cup white sugar

1/4 cup flour

1 1/2 teaspoons cinnamon

1/4 teaspoon nutmeg

1/4 teaspoon salt

1 teaspoon vanilla
1/4 cup heavy whipping cream
1/4 cup butter

Instructions:

1. Toss apples with the lemon juice.
2. In a large bowl, whisk together the sugars, flour, cinnamon, nutmeg, and salt. Add apples and toss to coat. Stir in the vanilla and heavy cream.
3. In a large skillet or heavy stock pot, melt butter. Add apple mixture and cook over medium to medium-high heat for 6-8 minutes, stirring constantly, until apples soften.
4. Pre-heat oven to 450 degrees. Line a 10-inch pie dish with pastry; pour in apple mixture. Place top crust, sealing the edges with water (between the crusts) and pinching. Be sure to have air holes in the top of the crust. (I cut vents while the crust is still on the counter, before placing crust over the filling.)
5. Bake at 450 degrees for 15 minutes. Reduce heat to 350 degrees and bake for 35-45 more minutes. If your pie dish is fairly deep, it should not run over, as long as you have sufficiently sealed the edges. If you want to be sure your oven stays clean, I recommend putting an old cookie sheet on a shelf below the pie, to catch any drips. □
6. Cool pie before serving. (The piece shown in the photo had been refrigerated. The pie is slightly more runny at room temperature!)
